

Nominal Ledger Browse

Dear user,

You must make sure that you have read "Navigating the System" first before reading any other Clarity guides as without a good knowledge of the navigation you will not fully benefit from the features and shortcuts that Clarity will provide for you.

Click here to read Navigating the System: https://dataflow.co.uk/images/uploads/release_notes/Clarity_-_Navigating_the_System_.pdf

Also at the end of each guide, there may be a list of other supplements for further explanation of features within this routine.

Enjoy exploring Clarity and please do not hesitate to suggest any improvement that you feel will be useful to add to this document.

Warmest regards

Dataflow (UK) Ltd

The Nominal Ledger Browse window lists the chart of accounts for the selected company:

In addition to the period selection there are two parameters located to the right:

Exclude zero balances

If ticked accounts with zero balances for all 5 balance columns will be filtered from view.

Group

Ticking this option will group the Nominal Ledger Browse grid by the selection made within the Group by tab.

There's a quick search and filter section located on the header of the browse grid where you can select and filter the browse grid by the first letter or number of either the account code or name. In the example below the letter 'B' was chosen:

There's also the option to type the first few characters of the account code or name into the field like . This option will return filtered results based upon the characters you have entered in the sequence you have entered them.

If you need to search and filter by a specific word, or sequence of letters, that exist somewhere within the Nominal account *Description*, but not necessarily at the start of the description, you can use the wildcard '%' at the beginning of your search entry. E.g. in the example below I'm searching and filtering all descriptions (highlighted below in green) containing 'reven' (for revenue). Type '%reven' into the *Like* field (highlighted below in yellow) and Clarity will apply a filter and display only Nominal accounts containing the sequence of letters 'reven' somewhere within the description (highlighted below in purple).

Double clicking on a balance, or right clicking and selecting View transactions, opens a new window providing balance overview for the selected Trial Balance Group.

In the example below using the I expanded Net Assets > Current Assets and double clicked the Period Balance cell for Debtors (outlined in yellow in the above image). This opened the balance overview window for the selected line:

From the balance overview window you can view the period postings made against that TB group by double clicking the desired period, or right clicking and selecting View transactions. In the example below 31 May 2020 was chosen:

alances 31 I	May, 2020		Period Actuals				Budgets

From the transaction browse window there are various Options available to use on the right hand side. The Options are highlighted in yellow below, with the available filters in Red. You can reduce the viewable transaction content by applying these filters therefore making it easier to source specific transactions.

You may also click on the available column headers to sort the grid by ascending or descending order.

Right clicking the mouse on a grid presents a number of right click options. The options available vary depending on which grid and/or transaction you are right clicking on.

The	list helow	offers an	overview of the	available right	click ontions.

Use this option to refresh the current view and bring in any new information since the window was opened.

Q View account	Use this option to view the selected accounts details.
Q View transactions	Use this option to view the transactions for the selected balance.
33 View cost centres	Use this option to view the cost centre apportionment detail for the selected transaction.
View scanned documents	Use this option to view the scanned documents attached to the selected customer account.
Source documents	Use this option to view the selected transaction line's source.
Modify batch	Use this option to modify the details of or reverse an existing Journal or Cashbook posting.
Select all	Should you wish to copy and paste the viewable content into an external application use this option to select all cells in the active grid.
∑ Sum selected cells	Use this option to perform a sum on the ranged of cells currently selected. This option only works with amount fields.
Copy to Clipboard	Use this option to copy the highlighted cells information to the windows clipboard. Once copied the windows paste facility will be available to paste the copied information into another application such as Microsoft Excel. There are sub options to copy to the clipboard such as: Display values, With headers and Unformatted.
Columns •	You are able to drag and move columns around to display the grid information in a chosen format. This option allows you to revert to Last saved layout or Revert layout to default, which will be the system default.
Uindow •	Similarly to the column option above this option allows you to choose between Save layout, Last saved layout or Revert layout to default.
S Last saved column layout	Reverts the layout back to the last saved layout.
Revert column layout to default	Reverts the column layout back to the system default.
